ROTHWELL LOCAL BOARD The ordinary fortnightly meeting of the Soard took place on Monday coreing, present - Messra. W. Hargreaves, (chairman); J. Hargreaves, J. Holmes, S. Hrannley, J. Batty, - Oliver, and the clerk, treasurer, and uppetor. The minutes of the previous general and committee meetings were read including.

-Mears W. Hargresse, (chairman): J. Hargresses, J. Holmes, B. Insake, J. Batty, J. Bergers, and the clork, treasure, and constitute motings were real, including the main several outcomes, and the motion of M. Bunnley, sconded Py Mr. J. Hargresses, and several outcomes. On the motion of M. Bunnley, sconded Py Mr. J. Hargresses, and several outcomes. On the motion of M. Bunnley, sconded Py Mr. J. Hargresses, in which is attach that the were M. J. Sowett, eleving of works, read his tunal monthly report attacts, the pipe having been properly fully matters, the pipe having been properly fully rant higher why where they had lighter work, which was again followed by a strata of hand and find there shafts. They had had not fixed these shafts are shared to bould be fits use has a stata the search which was again followed by a strata of hand and fixed these shafts. They had had not fixed these shafts. They had had not fixed these shafts are shared at the strate of the state of the state of the strate of the state of the state of the strate of the state of the state of the strate of the state of the state of the strate of the state of the state of the strate of the state of the state of the strate of the state of the state of the strate of the state of the state of the strate of the state of the state of the strate of the state of the state of the state of the strate of the state of the state of the strate of the state of the state of the state of the state of the lowed of the state of the strate of the state of the state of the state of the state of the lowed of the state of the strate of the state of the state of the strate of the state of the state of the state of the state of the lowed of the state of the strate of the state of the state of the state of the state of the lowed of the state of the state of the state of the lowed of the state of the state of the state of the lowed of the state of the state the s

to do unit, enter themeaves of through the contractors? The clerk thought they should gok Mr. Parkinson's opinion and advice. The chairman remarked that if people allowed the contractors to do the connections, it would be batter done, and they would only be charged at the schedule prices ; whether the contractors did it or the owners under-took the work themselves, the connections to contractors did it or the owners which was the work themselves, the connections ould have to be laid under their clerk of oreks' superintendence and to his satisfac-

ion. The clerk said the Board might bo pla-a a difficulty if persons were allowed connect, before the main work was appro-astisfactory.

connect, hofere the main works man approved a hitticity of the hat if owners were permitted to connect in Wood Lans, the Bathwell goop would also with to do it, and thus they opened a wide question. His Bathwell goop would also with to do it, and thus they opened a wide question. The strength of the strength of the strength the different properties, and as facilitate future to a strength of the strength of the strength the different properties, and as facilitate future to a strength of the strength of the strength the different properties, and as facilitate future to be strength of the strength of the strength the different properties, and as facilitate future to be strength of the strength of the strength the different properties, and as facilitate future to be strength of the best of the strength of t the matter, especially to rpresed his sincere desire to cold on behalf of Bothwell. sters had pased between they are and the Postmaster Gen bere is little chance of the gr willored of the remaining for unite; preither is there much be office being discontinued. the office being discontinued.

con, gontle orer Genoral, it appears maining four years guar-here much probability of continued. The chairman, to that at next meeting h-e Department however, gave notice that at next meeting he about move that the Department berequerted to remove the Postal Telegraph Office at Hothwell as early as may be possible. HARDECON OF HATTAN-MF. Caltereley having generously reduced the rents of his farm tenants something the 20 - ----- ROTHWELL TIMES

now asked to foll turn to those farm the reduced error

tueir rates the reduced amount nder their altered rent. y enquired if he understood aving a lot of cottages, if they uts they could get a reduction duced the rent

Aduces the routes any cours get a relation of rates. The clerk replied that inadiords having ottage property unally compounded for hem and he was allowed 26 per cent of Mr. J. Hargerares said that is a landlord reduces his rents, and appears before the Assessment Committee, he can obtain a Assessment Committee, he can obtain a reduction of his rates accordingly.

os of the Huuslet S

settion of his rates accordingly. Ir. Bramley further pointed out that the a are laid in a valuation; and be asked it would be if a man let his cottages at week, could be obtain a proportionate etion of rates?

how it would be if a must be southages at 24 a week, could be obtain a proportionate and the southage of the southage of the southage MF. J. Hardsoff MF. J. Hardsoff MF. J. Hardsoff and the southage of the southage of the Committee, they would then turn to the Analysis in the southage of the southage and the southage of the southage of the Analysis of the southage of the southage that would be an another the southage of the that southage of the southage of the southage that southage of the southage of the southage that southage of the southage of the southage and southage of the southage of the southage and empties and analysis of the southage and empties are allowed, although com-

here is no sec-und empties are allowed, although com-sounded for. In the second second second second second Mr. Batty such as the second second second second manual should be returned, and second second matrix to pay on the senomal rental. ROTHWELL LOCAL BOARD.

On Monday evening, the ordinary meet-ing of the above Board was held in the Board room, present-J. Charlesworth, Esq. (chairman); Meesre, W. Hargreeres, J. Harprares, J. Baity, H. P. Newsone, John Oliver, S. Branley, J. Sanderson, and the clerk, medical officer, tressurer and inspec-

The minutes of last meeting were read ad confirmed. I have been a set of the home, in ill health), and read the following report: Rockwell, free. 5th 1981.

port : Rothwell, Dec. 5th. 1881. To the Chairman and members of the Rothwell Lecal Board.

To the counter Level Board. Jentiteman, 1 have to report that during the past form events, there have been registered in the district 3 untuk and 3 deuthe. Daring the corresponding period in taxy year, there were 20 brits and 6 deuts. The number of stable in relation to the population still continues very low, the mild washing of the in the wereks largely contributing to this satisfactory condiof lat yes, there were 30 bits and 3 dents? The number of deaths is relation to the population will contain yes, the relation of the population will contain the second second second second second and there. The cases of death, are user and, each 7 weeks, The cases of death, are user and, red by there, from execution the second second second second second second second and the second s

Driving of Connection, the Haps' desire to Dr. Olaister stated Dr. Haps' desire to apologies for the delay in submitting the report, which delay had arisen from the con-tinued ill health. The Board expressed pleasure in hearing that Dr. Heaps was s likits better. A case of forwr in Carlton Lase was men-tioned which the doctor promined to 1000 le better. A case of fever in Carlton Lane was men-aed, which the doctor promised to look

A cree of ferrer in Carlton Lase was men-tioned, which the doctor promised to look the control of the doctor promised to look there were serveral inducers for team labour, and on the motion of Mr. Holmes, seconded by Mr. Oliver, it was unanimously resolved "That lie tender of Mr. Lawton" be ac-opted; one horer and cast and one man, may loa, per day. There was some little discussion as to the proprise of these of cast. It was, however, finally left as at present, one of clock on the day. One these of cast, it was, however, finally left as at present, one of clock on the day. There are any be made for removing the present hours, a feeling expressed of ex-tending the Startday ill two of these of clock. It was, however, finally left as at present, one of clock on the day. On the clock presping as may be made during the present nonth, and it was resolved on the motion of Mr. Franker, seconded by Mr. Newsome; that the tender of William Boolen dross if a, is ton, and it was resolved and as a trial. There was a difference of optimum as a trial. There was a difference of optimum at the some discussion, to purchase 2000 tons as a trial. There was a difference of optimum as to which material is most useful, dross of

Sothwell Cinnes m, Cariton, Lorsan Triday, December 50, 1881

LOCAL RETROSPECT, 1881 To-day it becomes our duty to reci-te of the Year 1881, and we are p hink that in many points it is a seable retrospect than last year. Our national history has not been m he troublesome and costly little wan

is troublesome and we is our trade reports gradually improved in tone; and as a equence, we now learn that the Chan-of the Exchequer will be able to relieve be the areque

or remotal of some portants in our reas. comparing Improvement in our That course has been hared in by us at soull, and we rejoice that the pits have a more constantly worked; the stone hands have in some cases been so bary a support wo relays of men; the match indicatory has been fully engaged all the n and taken all round, more movery has a support to relays of men; the match incas speculation. creater thrift, and specifically attantion to the enversion of our own neighbourhood, of more philanchropic effort for the moment of elements. The rger

an i of more philachropic effort for the end more philachropic effort for the solution of the of election, Pariamentary, Local Board and Echool Board. This year we are happily fee from these contests except as regard the Local Board, when Hearn, Braning and (a forcar member) was chosen in Mr. Haw-me brom.

Longer were re-locate, and ALT. Sandarson (is former multiply was chosen in Mr. Kin-de The Drainage Scheme for Rothwell was commenced in April, the controls being jet to Meser. M. Breydaw, Thompson and Steal. and its application of the second present time, but we far, there is little present time, but we far, there is little present time, but we far, there is little four energy end cell. The great development of the second present time, but we far, there is little four energy end cell. The great development of our vers-present is the second of the second present is built by the second present is the second of the high-ways have been a trutified typic of discussion in a profil s griand. The unce work of data month, he work of road ropsin, until now compiled in reasoning the complaints respecting the work of road ropsin, until now is the hard of far years, having expined the most expensive anticipated in the inter of the high-work of road ropsin, until now is the hard of discussion of the local legi-metric on the complaint of the being under one contractor, there more three and difficult price of road. Washedd road, anticipated in a Count and the the rational hours for the local data the being under one contractor, there more three anticipated in a County and the the rational base is laken the most expensive and difficult price of road. Washedd road, at the county prod bo fit, after which is a nuncipated in a County and and to the rationary of the Board is minitarian of the most healthy district in the United Kingdon, the dealts minitary rate hing only trops or count distriction. There are noting prodiced on all the respondent of the Board and to the rationary of the board is an interprise of the shift dealth, and and the rationary of the board is an interprise of the hind county, and it is respected with the noting of the school separts to babalating means of the school separts to babalating means only on the separt of the childre to how it to separt the school separts of the childre to only minit an an

The Mechanics' Institute has undergone therough recoversion in the matter of santing, decoration, date, but has not been sticlatry, prominent in public 1 at the ginning of the year the Rev. H. Hunning was instructing lecture on the Xinghonon', ben some changes were make in the Breen-er, and a very successful concourts was given ascrete local ladies and gentiemen to int the funda required for the shore-men-ned improvements. The rooms of the the funda is guotes with the shore-men-ned improvements. The rooms of the from this sources, butting, a large portion the number of the shore-men-tight here and a work-up target portion that annual income is reverted. The Dubling Society was shore-did in warry, and some very successful insetting in vifth, when a wind-up its and vifth, on the shoreand attendance. The Mechanics' Institute has under a thorough renovation in the matter

residue chapte in two two two the pass we're the number of Christmas un-have been lagion. "There have been several accidents dur-ing the year, one at Person's Hit, on the 1th of Jasuary, when Advanced Dance was buried to Jasuary, when Advanced Dance was buried to Flaythan, when a fun or over the allowed the r Lapitan, who mas run over the y a locone-tice cogins, near Beston pit. There was also a serious quary sections at a Rohved Hisig, resulting in the drash of Georg out and the disput of the processing of the location of the section of the section of the out on the section of the section of the out of the section of the section of the out of the section of the section of the out of the section of the section of the out of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the out of the section of the section of the section of the section of the out of the section of the section of the section of the section of the out of the section of the section of the section of the section of the out of the section of seion commenced, since which da seions have been held, attended nembers on an average, and pape nd social free and easys have mo and pleasently succeeded es-rest hopes may be entertained fro lishment of this interesting at Gr
